

GeoAI

AI for spatial prediction, urban heat, street-view interpretation, and remote sensing, with a critical lens on hallucination, bias, and spatial inequality.

Taught by Prof. Bo Zhao · UW Geography / HGIS Lab · **Vibe Coding** + applied AI workflows

Housing · Urban Heat · Street View · Remote Sensing

BUILD / CRITIQUE

Course Modules

- Spatial Prediction
- LLMs for GIS Workflows
- Remote Sensing AI
- Vibe Coding Prototypes

Critical Lens: housing inequality, algorithmic bias, hallucination, model collapse, and the social meaning of spatial AI.
